

ACT 47
COORDINATOR STATUS REPORT
DECEMBER 30, 2014

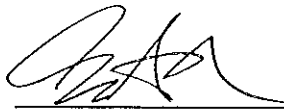

Section No. 11
Exhibit No. 61

RECEIVED & FILED
COMMONWEALTH ATTORNEY
OF PENNSYLVANIA
25
30 DEC 2014 16

NO. 569 MD 2011

Frederick A. Reddig, Coordinator for the City of Harrisburg (the “Coordinator”), by and through the Office of Chief Counsel for the Department of Community and Economic Development, respectfully submits the following Status Report regarding the implementation of the Harrisburg Strong Recovery Plan, as confirmed by this Honorable Court on September 23, 2013.

Respectfully submitted this 30th day of December, 2014

Christopher C. Houston

Attorney I.D.: 36502

Fred A. Reddig, Coordinator

Re: Update on Receiver's Plan Implementation

I am pleased to provide the Court with the quarterly update on the status of the implementation of the Receiver's Recovery Plan as confirmed by the Court on March 9, 2012 and on the Modified Plan filed with the Court on August 26, 2013 and subsequent to the Court's September 19 hearing, confirmed on September 23, 2013. This will be my fourth report to the Court since my appointment by DCED Secretary Walker as Coordinator effective March 1, 2014.

This memorandum, supported by the accompanying attachments, provides the Court with a summary of actions that have occurred and issues that are involved with the continued implementation of the confirmed Harrisburg Strong Plan over the fourth quarter of 2014.

Office of the Receiver/Coordinator

Given that the Fiscal Emergency declared in October 2011 by Governor Corbett has now been alleviated, the Department of Community and Economic Development on January 16, 2014 filed an application to vacate the Receivership and return the City to the underlying provisions of Act 47. Following review by the Court, your honor issued an order on February 25, 2014 to vacate the Office of the Receiver and for DCED's Secretary to appoint a Coordinator who will oversee the further implementation of the Court confirmed Harrisburg Strong Plan. As part of the order the Court retained jurisdiction over the further implementation of the Strong Plan. As Coordinator, I will continue to keep the Court apprised of the plan's status through my quarterly reports.

The Coordinator continues to hold weekly status conference calls with members of his consulting team to coordinate all aspects of plan implementation. The Team of professional advisors comprised of the Novak Consulting Group, Pennsylvania Economy League, Stevens & Lee, Public Resource Advisory Group and McKenna Long and Aldridge that supported the Receiver remains in place, and along with continued support from DCED and the Office of General Counsel, continues to be engaged in the further implementation of the Strong Plan. These weekly status calls are critical to the overall coordination of implementation activities.

With the Harrisburg Strong Plan's consummation on December 23, 2013, our focus during 2014 turned to addressing various implementation actions that were required as part of the Plan consummation along with a greater emphasis on operational issues in order to provide a sustainable balanced budget for 2014 and beyond. Initiatives in the Strong Plan will assist with effecting greater efficiencies in the delivery of core municipal

services, strengthening revenue collection and internal controls and revitalizing the City's tax base thru community and economic development initiatives.

This section of the report provides an updated summary of progress made with respect to:

- Task Force for Infrastructure and Economic Development
- Fiscal Issues
- Operational Matters
- Collective Bargaining

Task Force for Infrastructure and Economic Development

Following receipt of the final report from the Task Force in August to create Impact Harrisburg and the report's acceptance by the Coordinator, a request was made to both the City and Dauphin County to provide Certificates of Concurrence to show further support for the Governance Proposal and Action Plan. With the receipt of the Concurrence Certificates in late September, the application was finalized and filed with the Court on October 3. Following review by the Court, Judge Leadbetter issued an order on November 25 granting the Coordinator's request to further modify the Harrisburg Strong Plan to approve the Governance Proposal and Action Plan for the creation and operation of a single non-profit corporation to be known as Impact Harrisburg that will promote economic development and infrastructure improvements. The order also approved a request by the City to allocate up to \$75,000 to assist the City in financing an update to its Comprehensive Plan. The Comprehensive Plan update is a key recommendation of the Strong Plan and its completion will serve as a basis for the City's economic development and infrastructure priorities and greatly assist Impact Harrisburg in guiding its funding decisions.

The Governance Proposal and Action Plan includes articles of incorporation and by-laws to establish the structure for Impact Harrisburg along with funding guidelines, an ethics policy and an investment policy. Impact Harrisburg will administer \$12.3 million in funds set aside as part of the monetization for economic development and infrastructure improvements to aid the City in strengthening its tax base and addressing critical infrastructure needs. Given the \$10 million in funding set aside for Harrisburg by the Pennsylvania Department of Transportation (PennDOT), the Task Force decided that it would be more efficient to create a single non-profit to address funding for both Economic Development and Infrastructure.

The Governance Proposal and Action Plan process is also being coordinated with the City, Dauphin County and Assured Guaranty Corporation (AGM) to address the \$2 million annual allocation for each of the next five years from PennDOT that occurred as part of the Transportation Reform legislation passed in late 2013. An escrow agreement has been drafted and is going thru the final review steps. The escrow agreement accounts for the use of funds set aside in the Supplemental Harrisburg Growth Fund and their distribution to the Infrastructure, Economic Development and OPEB funds should the City not receive funding

from PennDOT or to Dauphin County and Assured Guaranty in the event they receive such funding.

Fiscal Matters

The City's revised 2014 budget enacted by Council on February 10 has served as the financial plan for the City. The revised budget was balanced and generally consistent with the Harrisburg Strong Plan. It reflects total revenues of \$57,577,728 and total expenditures of \$57,575,091 and an estimated positive year-end fund balance.

Through the end of November the City's revenues were \$57,211,532 while expenditures were \$49,105,471. The City has received virtually all of its real estate taxes and significant earned income tax revenue as well as the state funding for public safety services that was included in the Commonwealth's FY 14-15 budget. Our year-end projection is that the City will have revenues of \$60,944,012 and expenditures of \$54,932,745 with a positive balance of \$6,011,267. This represents a significant turnaround from prior years. Credit goes to the Mayor and his Administration for effectively managing the 2014 budget.

The Coordinator continues to closely monitor cash flow as part of the implementation of the Strong Plan. The City's bi-weekly payroll now averages \$950,000, slightly below the average of \$1.1 million for 2013. The Coordinator reviews City payables on a bi-weekly basis to insure expenditures are consistent with the confirmed Plan. During the quarter, 6 bi-weekly check runs were reviewed, comments provided and approved. Through very close monitoring of the City's cash flow and the cooperation of the Finance Office, the City was able to meet payroll and critical creditor obligations through the fourth quarter as well as maintain a current status (within 60 days) for virtually all payables. As the end of year approaches, the City has reduced payables from the \$2M level for most of the year, to approximately \$1 million. Payables on hold as of the December 18 check run total \$984,000 with 56% being to the City Treasurer for insurance reimbursements. I have worked with the City to both manage cash and prioritize payables. The cost containment provisions of the Emergency Action Plan continue to be followed as they relate to the City providing "necessary and vital services". The City also remains current with all of its debt service obligations.

As of December 18 and accounting for the December 18 payroll and check run, the City has a cash balance of \$4.5 million. The City's cash position has remained relatively constant thru the quarter with the receipt of significant EIT revenues. The above referenced cash flow projection is attached as part of this report.

The Coordinator continues to support the work of the City Controller and Finance Office to provide budget vs. actual reports to the Administration and Council. The Coordinator has provided a personnel model to the City for use in determining the current and future fiscal impact of personnel decisions.

Significant work took place during the quarter on the City's 2015 budget. The Coordinator provided a budget process memo and related templates for the City's use and held multiple meetings with the Finance Director and other City officials to discuss budget preparation matters. Department heads submitted their budget request information in mid-October. The Coordinator assisted with key revenue projections especially with the EIT and parking due to this being the first full year of increased revenues. The Mayor submitted his proposed FY 15 budget to Council on November 25. It called for no increase in taxes and general fund expenditures of \$59.4 million. It also includes 6 special revenue funds that will increase transparency and account for activities that were previously off-budget. It also calls for a \$2 million expenditure for sanitation improvements including new equipment and the hiring of nine police officers. After holding several budget hearings, City Council took action to approve the \$59.4 million budget on December 23 with only minor amendments to address personnel salaries.

Recognizing cash flow needs during the first quarter of the new year, the City requested proposals for a Tax and Revenue Anticipation Note (TRAN) in late November. In contrast to the one proposal received for 2014, the financial community expressed much stronger interest in the 2015 TRAN and 3 competitive proposals were received just prior to Christmas. The proposals are currently under review with a best and final offer being requested from each bank to address certain issuance cost matters. It is anticipated that an award will be made in January. The TRAN will provide stop gap funding in the event revenues are inadequate to deal with cash flow needs until real estate revenues are received. The TRAN process and restoring credibility in the financial marketplace is a very positive step in the City's recovery.

As previously reported and pursuant to the Court's order, the City has fully satisfied its obligation to Metro Bank that was secured by the Wild West artifacts. The sale of the artifacts in 2013 produced approximately \$2.6 million. Following the City's final payment to Metro Bank in mid-March, there remained a residual balance of approximately \$115,000. Although there was a question as to whether the City or the Capital Region Water (CRW) was entitled to any residual amount, an agreement was reached with CRW that the City would retain the balance. The Coordinator requested the City to provide a recommended use for the remaining balance. After internal discussions, Mayor Papenfuse submitted a request to the Coordinator that the funds be used for the replacement of a traffic signal controller and related equipment that is critically needed for the City's traffic signal system to address public safety concerns. The Coordinator then filed a request with Commonwealth Court for the use of the residual funds on October 23. Following its review of the Coordinator's application, the Court approved the request on November 14.

With assistance from Trout Ebersole & Groff, audit preparation work was completed by July and the City's auditor, Maher Duessel, began work on the 2013 audit. Their work was completed in November and the audit was issued November 26 and presented to the City's Audit Committee on December 16. This now brings the City fully up-to-date with its audits. The audit reflects the fact that after many years of negative fund balances, the City began

2014 with the debt and cumulative negative fund balances behind it. The City is targeting for the completion of the 2014 audit by June 30, 2015.

During the quarter the City continued to provide the appropriate Material Event Notices on EMMA related to debt obligations and audits including the completion of the 2013 audit and has maintained compliance with Securities and Exchange Commission (SEC) reporting requirements.

Operational Issues

Implementation of the operational elements of the confirmed Plan have focused on key priorities that are the most time sensitive and can affect operational efficiencies and savings.

The Coordinator's Team continued to work extensively with Mayor Papenfuse and his Administration during the fourth quarter to assist with numerous issues in helping the administration move forward with Strong Plan initiatives and other operating matters. Strong lines of communication are in place and the Coordinator and his team held regular meetings with the Mayor and key administrative staff on issues involving finance, budget, tax collection, IT needs, public safety, City Island issues, CRW/City matters and personnel. Our agendas have focused on the most significant issues that are pending at the moment. Meetings have been very productive and resulted in addressing plan related issues in a constructive and positive way. I have also engaged in periodic meetings with Council President Williams, with the same objectives. Again, these meetings have been very productive as we work to achieve consensus between the Mayor and Council on plan related initiatives.

With the assistance of the Coordinator's Team, the City continues their efforts to integrate a management system within City operations that more clearly defines goals and objectives. Following discussions with the Mayor, the Coordinator's Team continues work with the administration to refine the implementation matrix to make it a more useful management tool.

An important element of the Strong Plan is to build administrative capacity in City government within the resources available. The administration has judiciously managed the 2014 budget so as to selectively add positions while staying within a tight budget framework. Though key management positions including Solicitor, Finance Director, DPW Director, Police and Fire Chiefs, Communications Director and Community and Economic Development Director are filled, the Administration continues to deal with several vacancies in key management positions. During the quarter the City hired an Auditor for the Controller's Office, an Assistant City Solicitor, a Purchasing/Risk Manager, a Solid Waste/Recycling Manager, a Project Manager and an Asset Manager both in the Bureau of Housing and a Recreation Director. Seven police officers completed their training and started working in the City on November 24. The City is now going through the selection process to hire four additional police officers. Further, the Mayor with assistance from the Coordinator is currently pursuing the hiring of a Business Administrator. Efforts to hire an IT Director have been very

difficult given available salary, though, an individual has been hired on an interim basis to provide additional IT support.

Following the completion of an assessment of the City's IT system by the Coordinator's Team this summer, assistance has been provided to implement recommendations that will enhance the sharing of information across departments, eliminate redundancy and improve overall efficiency and service to the public. A review of the City's phone system was part of the assessment, however, proposals for the report's primary recommendation were beyond the City's current funding capabilities. The City then obtained proposals to service the current Nortel system and found this to be within its financial resources for the next several years. The proposal also included provisions for the audit of the City's current telephone lines that would identify and disconnect lines no longer in use resulting in an estimated savings of approximately \$1,000 per month. The City is now implementing this approach until such time as funding becomes available to update the entire telephone system to a VoIP system.

Led by Dauphin County Commissioners and the District Attorney's office, an initiative is underway to assess the viability of regional approaches to police services. A Task Force has been established comprising police agencies within the County and County officials to guide this process. Following the Task Force's action to unanimously support moving forward with this initiative, the Police Executive Research Forum (PERF) was engaged through a partnership between the County and the Coordinator's office to undertake a study of possible regional and collaborative approaches to police service within the County. Harrisburg's Police Chief is an active participant in this process and will ensure that the City's issues are an integral part of the study. The Coordinator's Team is providing resources to assist with the study and will be providing input as the process moves forward. The Task Force had its kickoff meeting on November 13. PERF is now in a data collection mode and meeting with local officials and police agencies throughout the County. Their study will consider multiple intergovernmental arrangements for policing services with completion scheduled for the spring of 2015. This intergovernmental initiative is consistent with the Strong Plan's goals and could open the door to even greater cooperative ventures.

Mayor Papenfuse has also revisited the issue of the most efficient way to provide sanitation services in the City. Through the assistance of the Coordinator, the firm of Barton and Loguidice was engaged to assist with an evaluation of the existing process and to provide recommendations for a more efficient operation. The approach being taken is one of a managed competition through a partnership between the City and the union with the goal of creating an efficient refuse collection system. Meetings have been held with the collective bargaining unit and members of Council to obtain their input. The consultants have spent considerable time in analyzing the current collection operation. At this point the collective opinion of City officials and the bargaining unit is to provide a six month trial period to see if the City's performance level can be optimized. A draft report was recently completed and circulated for input from the Administration and Coordinator. A final report with recommendations should be issued in early 2015.

Following Mayor Papenfuse's request to City Council, agreement was reached to reinstate the Comprehensive Plan update process. Council and the Planning Commission have taken action to move forward with the update, an RFP was developed with proposals due the end of December. The planning process will occur during 2015 and with significant opportunity provided for resident input in establishing the City's development priorities. A funding request for the use of up to \$75,000 was included in the application for approval of the Governance Proposal and Action Plan and approved as part of Commonwealth Court's Order issued November 25.

Concurrently, the City has begun the process to update its consolidated plan under the Community Development Block Grant program and has engaged the Ferguson Group to assist in that effort. This work will serve as a foundation for and be integrated into the City's Comprehensive Plan update process which will also include the development of both a Housing Strategy and an Economic Development Strategy.

Since Plan confirmation, the Coordinator's Team has continued to meet regularly with directors of all City departments to review priorities and provide further guidance on implementation activities. A matrix documenting the status of implementation initiatives through late December is attached.

In August, Treasurer John Campbell was charged by the Dauphin County District Attorney with theft from the Historic Harrisburg Association. Mr. Campbell was charged with one felony and one misdemeanor in the theft of \$8,400 from the Association's "Lighten Up Harrisburg" campaign. Subsequent to the filing of charges Mr. Campbell submitted his resignation as Treasurer effective September 2. On September 11, Campbell was charged with an additional theft count related to his role as Treasurer of the Stonewall Democrats. Mayor Papenfuse designated former City Treasurer Paul Wambach to oversee the Treasurer's office until such time as Council appointed a new Treasurer. The City with assistance from its appointed auditor undertook a review of activities in the Treasurer's office and found no evidence of abnormalities or missing funds.

During September, Council solicited interest from eligible individuals for the Treasurer's position and received eleven applications. Six of the applicants were found to be qualified and were interviewed by Council on September 29. Although Council initially selected Timothy East to serve the remaining 15 months of the term, Mr. East was unable to obtain the necessary bond, and thus resigned on October 21. Council then considered other candidates who had applied and on November 12 selected Tyrell Spradley to serve as Treasurer through the end of 2015. Mr. Spradley has a degree in accounting from Albright College and more than seven years of accounting experience in the banking, retail and non-profit sectors. Mr. Spradley has obtained his bond and assumed office in early December.

Collective Bargaining

The changes contained in the Agreements amending the Collective Bargaining Agreements for the AFSCME, FOP and IAFF bargaining units have been implemented and the cost

reductions resulting from these changes are being monitored. Fire overtime had been a continuing issue for the City, however, with the new fire contract approved in April, the closing of a fire station and the addition of a new complement of firefighters in July, the City has been able to keep overtime under control this year. Total overtime through November was 85% of budget and based on trends over the second half of the year should come in around \$150,000 or more under budget. As a percent of normal salary, overtime for the first three months was 64% of normal salary and since the new contract became effective in April has dropped to 35% of normal salary. The formal Amendment documents setting forth the revised contract language have been finalized and agreed to with AFSCME and the FOP. The IAFF has not yet responded to the formal Amendment document with all of the revised contract provisions which the City prepared and provided to them. Under the existing provisions concerning health insurance, no further changes in the plans are necessary for 2015.

Asset Monetization Matters

With the Harrisburg Strong Plan's consummation on December 23, 2013, our focus during 2014 has turned to addressing various follow up actions that were provided for as part of the Plan consummation along with City operational recommendations as discussed above. Approximately \$490 million of City debt and other obligations was eliminated at Plan consummation. Importantly, after consummation, the City is no longer a guarantor of debt service payable by either the Lancaster County Solid Waste Management Authority (LCSWMA) on the Resource Recovery Facility or the Pennsylvania Economic Development Financing Authority (PEDFA) for the parking system. The vast majority of the Strong Plan was not merely a restructuring of City liabilities, but was the complete elimination of debt and other obligations (see chart attached). The exceptions are the City's General Obligation Bonds and the so-called "Verizon Bonds." The former were restructured and the latter are in the process of being restructured.

There also remains work to implement actions following Plan consummation related to both the Resource Recovery facility and the parking system as well as to pursue matters related to several other debt related issues that were not encompassed by the Plan's consummation.

This section of the report provides an updated summary of progress made with respect to:

- The sale of the incinerator from The Harrisburg Authority, now Capital Region Water (CRW) to LCSWMA.
- Long-term capital lease of Harrisburg's parking assets from the City and the Harrisburg Parking Authority (HPA) to PEDFA.
- Activities related to the "Verizon Bonds" and the "Senators' Stadium" financing.
- Activities related to the transfer of the water and sewer operation from the City to CRW.

Resource Recovery Facility

The Lancaster County Solid Waste Management Authority (LCSWMA) is now operating the resource recovery facility. The City was able to successfully relocate its public works facility to a former automobile dealership on Paxton Street pursuant to the terms of the sales agreement with LCSWMA and for the time being operating is out of that facility. The \$300,000 payment from LCSWMA provided for this move will cover rental payments for approximately two years and provide the City with time to develop a long-term plan for its public works operation. Work continued during the quarter to more fully complete renovations to the facility to accommodate City usage. The City is also now receiving approximately \$288,000 per year as a Host Fee from LCSWMA. Tipping fees paid by haulers of municipal solid waste derived from the City have also been slightly reduced.

Moody's Investors Service affirmed its A3 rating on LCSWMA. In February of 2013, well prior to the consummation of the Strong Plan, Moody's had warned of a potential "multiple-notch" downward rating change of LCSWMA should LCSWMA acquire the Harrisburg Resource Recovery Facility. According to LCSWMA's Executive Director, this rating confirmation, "acknowledges the positive structure of the purchase of the former Harrisburg waste-to-energy-plant."

Tonnage from the City of Harrisburg, delivered to the Susquehanna Resource Management Complex was 31,180 as of the end of October 2014. The City's disposal agreement provides that at current pricing, 35,000 tons must be provided from the City. It is expected that tonnage will exceed this minimum in 2014, thus no additional payment from the City will be required. As the City focuses on increasing its recycling rate, it will need, though, to closely monitor tonnage in subsequent years to avoid a premium payment. The City's concurrent focus on stronger enforcement of illegal dumping should help to offset the recycling tonnage loss.

Harrisburg Parking

With Plan consummation, the parking assets are now under the auspices of the PEDFA, who has engaged the Capital Region Economic Development Corporation (CREDC) to oversee the operation and management of the parking operation. Standard Parking Corporation is managing day to day operations and Trimont Real Estate Advisors is managing the parking assets.

The national rating agency - Standard and Poor's Ratings Service - upgraded Assured Guaranty Municipal Corp. (AGM) from AA- to AA in March. This should result in holders' of the Series A and Series C Parking Bonds enjoying an increase in value in their bonds and increased liquidity. In July 2014, Moody's Investors Service downgraded Pennsylvania's general obligation credit from Aa2 to Aa3; stable outlook. In September 2014, Standard and Poor's Ratings Service and Fitch Ratings downgraded Pennsylvania's general obligation credit from AA to AA-. The Commonwealth of Pennsylvania's credit is one factor in the underlying rating of PEDFA's Series A Parking Revenue Bonds. In December, Fitch Ratings affirmed the

BBB rating for PEDFA's rating on the 2013A Parking Revenue Bonds providing further affirmation of the strength of the bonds in the marketplace.

Due to extreme weather and other considerations, there was a delay in installing the new "smart" parking meters by more than a month, though they were installed in both downtown and mid-town by summer. The new meters accept credit cards and are useable through a cell phone application – that is, users are able to review their time remaining on the meter and increase time, by using their smart phone, thus avoiding a ticket. A further enhancement occurred in early December with the launch of the Pango Mobile Parking system. This system allows drivers to use their mobile phone to pay for parking without going to the meter, remember where their car is parked, and obtain parking coupons from local businesses. New garage technology has been specified and bid awarded, with installation underway. The technological improvements continue to be instituted and significant improvements should be visible in 2015. Once all the technology has been installed and integrated, the City and parking customers will see many improvements and benefit from the additional options that will address issues raised by merchants, employees and residents.

Due in part to delays in implementing the adjudicatory process with respect to those not paying their parking tickets, the City is not expected to receive the entire \$2 million in payments from the parking system this year. Notwithstanding the foregoing, the City will receive significantly more revenue this year than in recent years from the parking system under its lease to PEDFA, including increased net parking revenues deposited into the General Fund (increased from \$1,507,727 in 2012 to \$2,297,645 as of November 2014) and increased lease payments (compared with transfers from the Parking Authority of \$250,000 in 2012 and \$0 in 2013).

A Parking Advisory committee chaired by Trimont Real Estate Advisors, the Asset Manager, and comprised of a representative from CREDC (as PEDFA's representative); Standard Parking Corporation, the Operator; the HPA; the Mayor; City Council; Department of General Services (DGS); AGM; and the County was established early in 2014 and continues to meet. Although it has no decision-making authority, the Advisory Committee serves as a forum for communication and interaction among the parties with interests in the operation of the Parking System and as a vehicle for customer and public input with respect to the operation of the system and has assisted in addressing issues related to the transition to the new parking system. During the last quarter they held a meeting on October 9 to keep all parties apprised of the status of the system and the improvements that are occurring. Their next meeting is scheduled for February and will include a public session to obtain feedback from the public.

The Verizon Bond Problem

The "Verizon Bond" problem has been a major focus of the Coordinator's Team, since consummation of the Strong Plan. The Verizon Bond problem originated from the fact that the Verizon Bonds were issued by the Harrisburg Redevelopment Authority in 1998 to fill a structural deficit of the City at the time. The assumption was that Verizon or someone would be in the building paying sufficient rent to pay approximately \$41.6 million of debt service from 2016 – 2033. The City of Harrisburg guaranteed repayment of all the debt service on the Verizon Bonds, with the City's guarantee insured by AGM. The Verizon lease ends prior to the requirement that debt service be paid. Therefore, if Verizon moves out prior to the debt service coming due, which is expected, and the building remains vacant, the City would be required to pay the entire \$41.6 million in debt service.

Although active discussions occurred early in the year with DGS to address the relocation of state offices to fill vacant office space caused by the departure of Verizon, they could not proceed to conclusion until legislation to authorize the sale of the former state hospital site occurred. This legislation had passed the House in February, however, it was not until June 30 that it passed the Senate and was signed by the Governor on July 2. This allowed final negotiations on the lease between Harristown Development Corporation (HDC) and DGS to proceed. A final term sheet was agreed to and the lease between the two parties was approved through the state's procurement process with final approval by the Commonwealth's Commission on Buildings and Grounds occurring on September 18. The lease is for all useable space within the Verizon Building and commences on March 1, 2016. The benefits of the lease to the City include, up to 900 additional employees working in the central business district from March 1, 2016 through February 28, 2033 and a rental payment stream from the tenant sufficient to at least pay a significant portion of the debt service associated with the building. Had such a lease not been entered into, there was a high degree of likelihood that none of the exposure to the City and AGM would have been defrayed by revenues of the operation of the Verizon Building.

In addition, DGS and HDC are discussing a \$12-\$17 million upgrade to save energy in all three buildings. This transaction is being pursued contemporaneously with, and has an impact on the structure of the Verizon Bond restructuring. All parties continue to believe that it is feasible to move the Commonwealth employees into the building (in stages), so that sometime prior to March 1, 2016, the building will be fully occupied.

In accordance with the Strong Plan, and as confirmed by the Commonwealth Court, to protect the City against the possibility it might otherwise have to commence making reimbursement payments to AGM as early as 2017 for the portion of bond payments that revenues derived from a new lease agreement are insufficient to cover, the Receiver, now the Coordinator, and AGM have agreed to work cooperatively to fashion a repayment schedule that will afford flexibility to the City in repaying its obligations in full over time. By reason of that agreement, should the City have a reimbursement obligation after factoring in the revenues to be generated under the new lease, the repayment of its reimbursement

obligation will be structured in the following manner. Due consideration will be given to when the City's other obligations under the Strong Plan are due and when they are repaid in a manner that creates additional repayment capacity for the City. AGM will be compensated by the City in an amount necessary for AGM to be repaid all amounts advanced by AGM to the bondholders plus interest to AGM from the date of its advance through repayment at a rate to be agreed upon. Negotiations between HDC and its bank with regard to funding of fit out expenses and energy conservation infrastructure are ongoing and need to be completed in January 2015 to stay on schedule. Similarly, negotiations between the Coordinator and AGM for a Settlement Agreement are ongoing, and need to be completed by January 2015 to stay on schedule. Failure to stay on schedule could have material adverse consequences to one or more aspects of the Coordinator's plan for a solution to this problem.

Stadium Bonds and Senator's Lease

The City is undertaking a more comprehensive review of City Island to determine its best use as a regional asset. There are a number of issues that relate to the Island that are under review. The City participated in a charrette this fall that was undertaken by the Urban Land Institute to assist with this process.

The Coordinator's Team is assisting the City in reviewing and revising the lease with the Harrisburg Senator's for the City Island stadium so as to insure that adequate revenues are received to fulfill the debt service obligations on the stadium bonds. The City has reached out to the Senator's organization to discuss revising the Park Permit pursuant to which the Senators make a portion of the payments on the stadium bonds. The City wanted to wait until the end of the Senator's current season before aggressively pursuing this matter. The Coordinator expects to be aiding the City with modifications of the Park Permit or a new Park Permit.

This issue also involves close coordination with the Department of Conservation and Natural Resources (DCNR) as they are the administrator for various federal grants the City received under the Federal Land and Water Conservation Program for work on City Island. Meetings have been held with DCNR to coordinate any proposed lease changes with them, as well as other issues related to City Island improvements.

Coordination with the Harrisburg Parking Authority (HPA) is also an element to the City Island issue, as certain parking facilities on City Island are included in the parking monetization transaction. HPA is currently undertaking a survey of City Island in order to provide the basis for the creation of condominiums related to the parking facilities with the parking garage as the primary footprint. A surveyor has been engaged, however, HPA is awaiting Title commitment before doing work. It's anticipated the survey work will be completed by January 31.

Water and Sewer Operation

The City transferred responsibility for the ongoing operation of its water and sewer facilities to The Harrisburg Authority (THA) now known as Capital Region Water (CRW) effective November 4, 2013. This action resulted in the transfer and consolidation of the administrative, operational and financial responsibilities for the water, wastewater and storm water operations to CRW. This operational approach addresses compliance with the Clean Water Act and Chesapeake Bay requirements and has been viewed as an acceptable model for the Department of Justice, EPA and DEP. The creation of an operating authority was also supported by the suburban communities. The City and CRW have entered into a shared services agreement to facilitate the transfer and provide for the effective coordination of services between the parties.

The City and CRW were awarded a \$26 million loan from PENNVEST in the summer of 2013 which represents half of the estimated project cost of \$50 million. One of the conditions of the loan was the transfer of operational and financial responsibility to CRW. The loan proceeds will be used to address the necessary upgrades to the wastewater treatment plant to meet Chesapeake Bay requirements. In mid-March, CRW closed on a line of credit with M&T Bank that allowed a notice to proceed to be issued to contractors. Work on the \$50 million project began in March and will continue thru early 2016 to address EPA and DEP requirements. These upgrades will reduce pollution entering the Susquehanna River and Chesapeake Bay as well as update aging equipment. The permanent project financing, a combination of a Pennvest loan and the issuance of \$29.7 million of variable rate sewer revenue bonds closed on July 17. Just before the Christmas holiday, the Authority gave approval to a partial consent decree with the US Department of Justice, Environmental Protection Agency and Pennsylvania Department of Environmental Protection that will negate the issuance of any fines by those agencies, so long as the Authority fulfills its obligation to reduce sewer overflows and improve system performance through the current wastewater system improvement project.
